

LED MAX RANGE LIGHTING

THE ULTIMATE IN DRIVING RANGE LIGHTING

Designed specifically for the driving range, and with particular attention to the requirements of golf range gaming technologies such as Inrange and Top Tracer, Amtech Range in partnership with Epic Golf Ireland can now exclusively offer you the ultimate in driving range lighting.

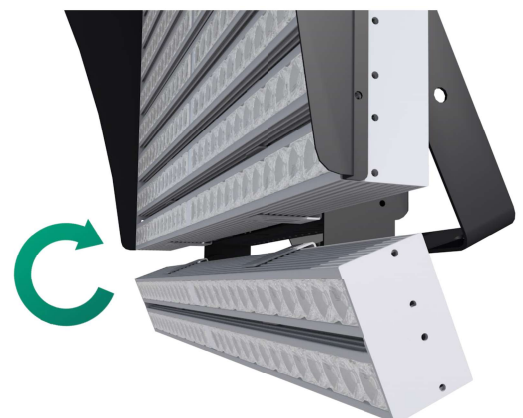

With 11 rows of high efficiency LEDs, each LED MAX unit has a total of 308 lights, illuminating your outfield with crisp, white daylight. The focussed beams and integrated cowl minimise light pollution.

Beam Angles:

7 rows at 11° for exceptional long distance penetration, allowing visual ball tracking to over 300 yards.

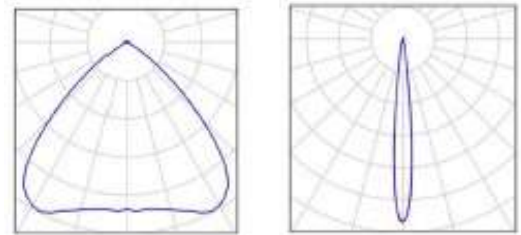

2 rows at 40° to pick up the highest point of the flight arc, and to blend light channels, avoiding dark spots.

2 rows at 90° with tilt option, for unparalleled short game area illumination and to eliminate shadow issues at multi storey ranges.

WHAT'S IN THE BOX?

- 1 x LED MAX 700w light unit
- 1 x adjustable, aluminium mounting bracket
- Nuts, bolts and washers
- Connects directly to your 110/230v 13A supply

Intelligent Beam Angle Mix

SPECIFICATIONS

- Power: 700w
- Power Input: 90 to 295 VAC, 50-60Hz
- Working Temperature: -25°C to 55°C
- Waterproof: IP66
- Lumens: 105,000
- Power Supply: Integrated Mean Well
- LED Chip: CREE/OSRAM SMD
- Dimensions: 607x440x208mm
- Weight: 16.3kg
